Climate crisis, health crisis

Climate Change

- 9 of the 10 hottest years on record have been in the last ten years
- Scientific consensus that carbon emissions are driving warming
- Wildfires, flooding, heatwaves and drought are all more common

Health Impact

- 40,000 annual UK deaths due to air pollution
- 3,000 excess deaths due to heat in 2022
- Increased risk of pandemics, mosquito borne disease, malnutrition
- Estates and operational incidents including flooding and heat stress

Emergency

- Visibility of the impact
- Learning from the airline industry
- Speed and scale of response

The NHS response

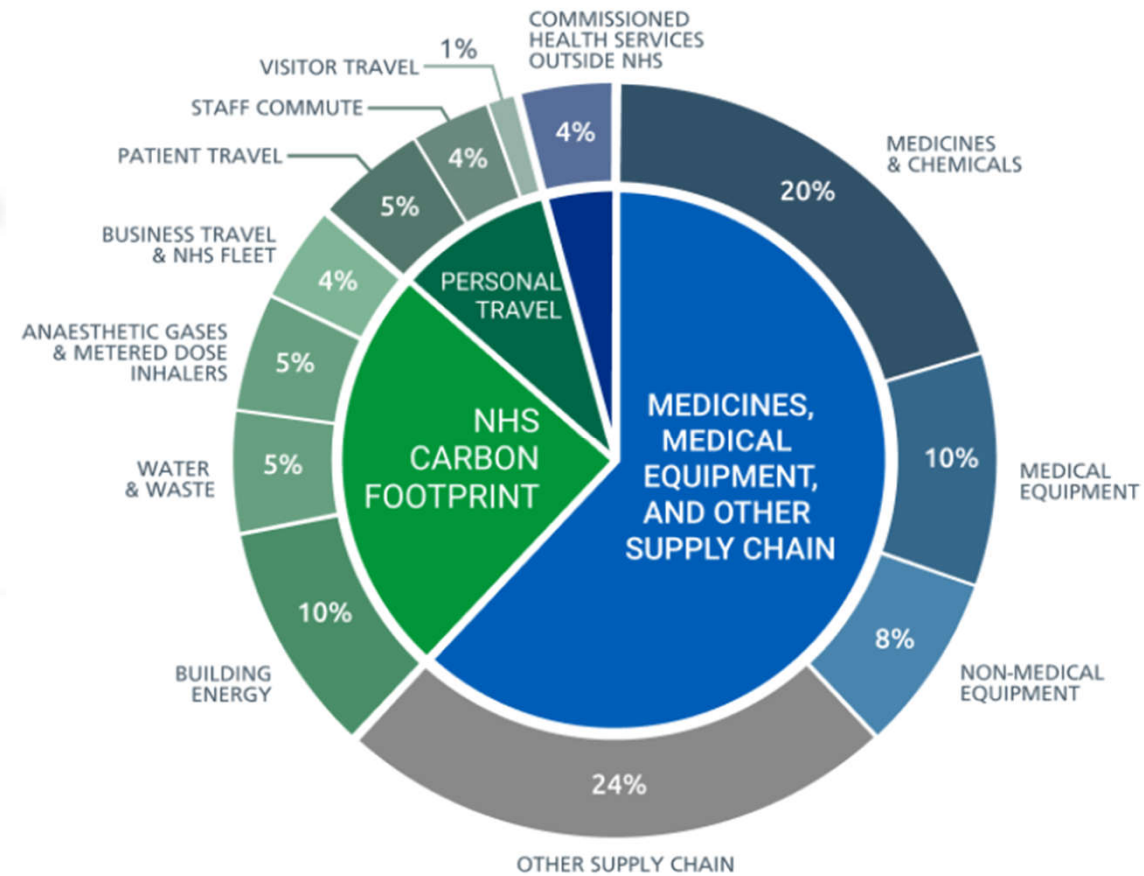

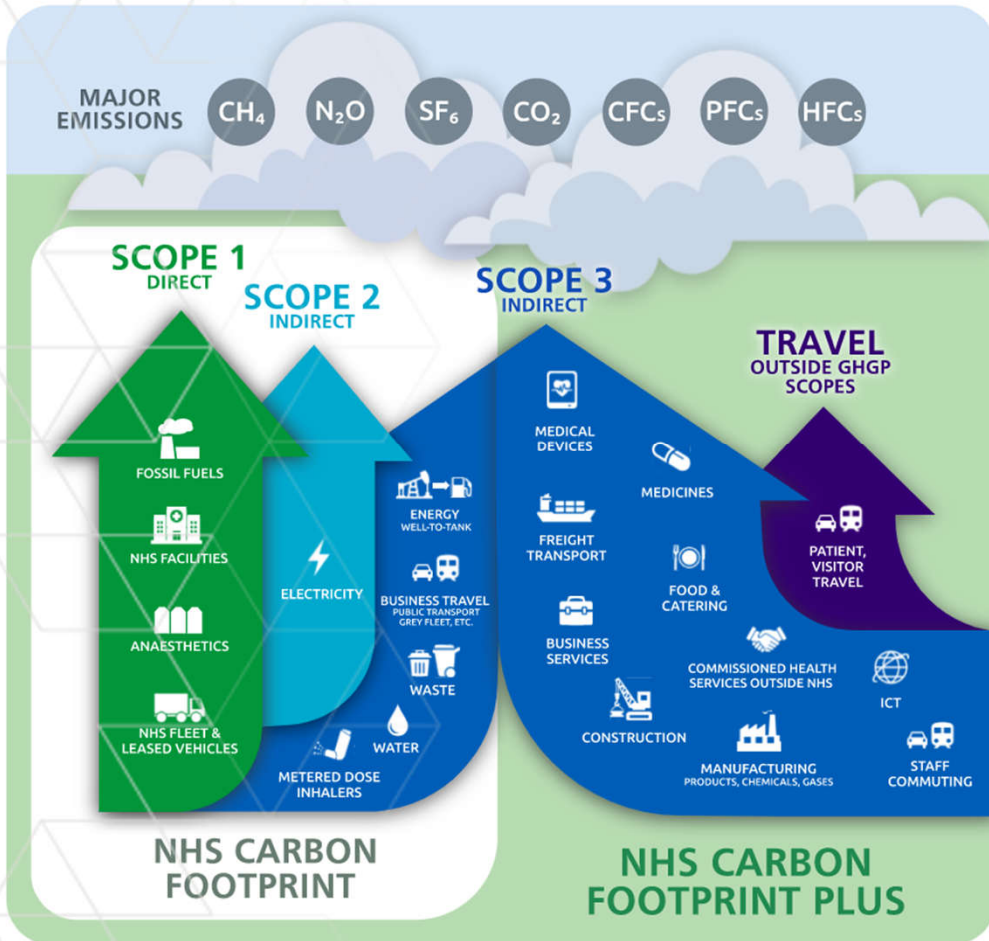

In October 2020, the NHS set itself two ambitious and feasible targets to reduce its carbon emissions:

- Net zero by 2040 for the emissions we control directly (the NHS Carbon Footprint); and
- Net zero by 2045 for the emissions we can influence but don't directly control (the NHS Carbon Footprint Plus)

- In one year we reduced emissions equivalent to powering 1.1 million homes with electricity for a year
- 90% of NHS staff have affirmed their support for a Greener NHS
- Electric ambulances launched
- Net Zero NHS enshrined in law

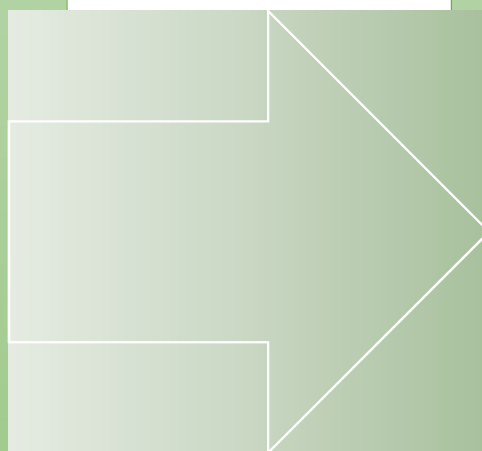

National greener NHS context

The case for finance leadership

Our Challenges

1. Visibility and understanding of the task, accessing funding
2. Financial sustainability
3. Modelling and capital projects
4. Reporting

Finance rockstars and superstars

1. Networks, One Finance, reputation
2. Savings opportunities
3. Technical expertise
4. IFRS Foundation leading on environmental sustainability standards

Our work in the South East

The Green Book

Central Government Guidance
on Appraisal and Evaluation

Objective 1:

Improving business cases and access to funding

Objective 2:

Identify and share good practice, with a focus on the link between financial and environmental sustainability

Objective 3:

Increase engagement and understanding of the environmental sustainability in healthcare

Funding for sustainability

Public Sector Decarbonisation scheme

Regional accelerator projects

SBRI Healthcare Clinical Innovation Fund

Digital funding

National Institute of Health and Care Research (NIHR)

Supporting access

- Ready-to-tailor cases on the shelf
- Awareness of funding streams
- Green Plans
- Shared learning on applications and outcomes

Where we go next

**What can you do
as a system?**

**What can you do in
your organisation?**

**What can you do
personally?**

Questions

As a rock star, I have two instincts, I want to have fun, and I want to change the world. I have a chance to do both.

- Bono

We did not come here to fear the future. We came here to change it.

- Barack Obama

I'm not a woman, I'm a force of nature

- Courtney Love
